EVEREST
DESIGNER CEILINGS

Everest Industries Limited

Everest is one of India's fastest growing building solutions companies. Since 1934, people have trusted Everest with their most valuable assets, their factories, warehouses and homes. We have covered more than 1 billion sq. m. of industrial and residential roofs.

Today, we provide building products and building solutions for commercial, industrial and residential sectors in over 25 countries. In India, we distribute our products across 1,00,000 villages and 600 cities, through 5 state-of-the-art facilities, 6000 outlets, 37 sales depots and 11 offices. Our range of ready-to-use products provides solutions for your building needs in roofing, ceilings, walls, floors, cladding and doors.

We manufacture Pre-Engineered Buildings and Smart Steel Buildings for the industrial and commercial sectors.

Everest Building Solutions. For **Strength, Speed and Safety.**

Everest Designer Ceilings

Made of high-quality Fibre Cement Boards, Everest Designer Ceilings come with superior attributes that enhance the aesthetics of your living and working space beside promising a lifelong performance. Everest Designer Ceilings are manufactured using state-of-the-art Hatschek process with basic mix of cement, cellulose pulp fibres and additives. This revolutionary process not only makes them highly durable but also resistant against fire, moisture and termite.

Everest offers an integrated ceiling solution with its advanced Ceiling Grid System. Everest Ceiling Grid System, being roll-formed from hot-dip galvanised steel, provides effective protection against corrosion. This world-class solution is ready-to-install and dimensionally stable, thus allowing you to translate your conceptions into reality and truly helps you create ceilings that the world looks up to.
